

1. Family and Friends

In an average Hungarian family there are two children, a mother, and a father. However, there are families with more than two children and many couples get divorced and the children stay with one of the parents.

I have a relatively large family my parents, a younger sister and an elder brother.

My father is 44 years old. He is a tall man with curly brown hair and a moustache. He works as a lawyer for a big international company. Although he's very busy, he has several hobbies. He plays tennis regularly and sometimes goes fishing, but he always finds time to be with us as well.

My mother is an elegant woman. She has big blue eyes, and brown hair. She is a teacher. Her hobbies are hiking and swimming. She is an excellent cook and she always prepares our favourite dishes.

My younger sister is 8 years old and goes to a nearby primary school. She likes going to school very much because she has lots of friends there. She goes to piano lessons twice a week, and she's good at swimming too.

My elder brother is a university student. He comes home almost every weekend and we go to the gym together. We have a dog, a golden retriever and we usually go for long walks.

I have a lot of friends and I meet them very often. As we are all basketball fans, we regularly go to matches and play streetball when the weather is good. We are also interested in good films, mainly action films, and go to the cinema together.
